Attendance Checker app - User Stories

As a teacher, I want to log in to the app, so that I can be sure that data is relevant to me.

As a teacher, I want to see all my active courses/classes, so that I can keep track of all my courses/classes and easily select one.

As a teacher, I want to see all my archived courses/classes, so that I can return to examine them if I need to.

As a teacher, I want to create new courses/classes, so that I can create and keep track of the attendance of different student compositions and courses efficiently.

As a teacher, I want to name my courses/classes and add identifiers to my courses/classes, so that I can easily and surely recognize and tell apart my courses.

As a teacher, I want to archive completed courses/classes, so that I can keep the active courses/classes list clean and simple.

As a teacher, I want to add students to a course/class, so that I can create a student composition for a course/class.

As a teacher, I want to remove students from a course/class, so that I can update the student composition when incidents happen (student drop out etc.).

As a teacher, I want to see my course's/class's current overall attendance percentage, so that I can have a quick overview of the attendance and analyze the situation.

As a teacher, I want to see my course's/class's current overall attendance percentage, so that I can have a quick overview of the attendance and analyze the situation.

As a teacher, I want to see my course's/class's all created attendance checks, so that I can keep track of the lessons and return to view previous checks.

As a teacher, I want to see the creation date and time of all checks, so that I can easily find previous attendance checks if I need to.

As a teacher, I want to create a new attendance check, so that I can take the student attendance of the current lesson.

As a teacher, I want to delete attendance checks I have created, so that I can undo mistakes and keep the list clean.

As a teacher, I want to mark individual students present or absent, so that I can see the attendance percentage of the current lesson and track the overall attendance of the course/class.

As a teacher, I want to mark absences as excused if I have a reason, so that I can later see that the absence was excused and the student's grade/performance will not suffer.

As a teacher, I want to add notes to individual students within different attendance checks, so that I can add reasons for absences and other info I might need to remember later.

As a teacher, I want to go back to edit created attendance checks, so that I can mark students present/absent if I make mistakes.

As a teacher, I want to generate attendance reports for individual students in course/class, so that I can keep track and analyze students' attendance and activity.

As a teacher, I want to generate attendance reports for courses/classes, so that I can keep track and analyze the attendance and activity of my courses/classes.

As a teacher, I want to log out of the app, so that I can be sure that data is kept private to myself and no one else can see or edit it if I leave the computer on.
